Rocco Fiorentino from Standing Ovation

by Ki

on Friday, July 9, 2010

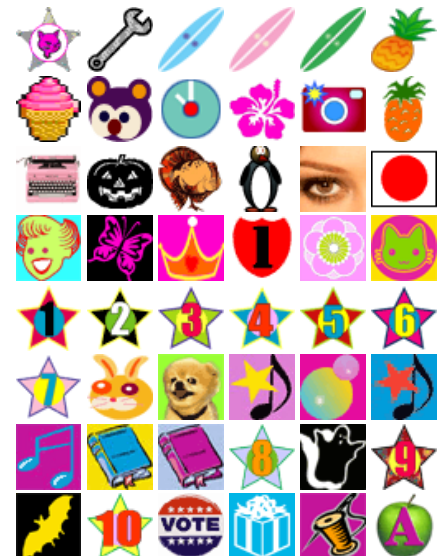

Meet Rocco. He's a musically talented kid who doesn't let anything get in the way of his dreams... he happens to be blind. It's just a part of him, not a problem and he's achieving big things. He plays the drums and the saxophone and the piano and it's difficult to pick one he likes the best. "I like everything, as long as its music really I love it. But I think the piano is my favorite." Rocco admires Stevie Wonder and Frank Sinatra. If he could meet anyone in the world it would be Steve Martin or Frank Sinatra. How'd he get into music at such an early age? "My mom plays music for me, even when I was younger. Ever since I started piano at the age of 2 and from there there I started singing at age 5." He's really excited to be a part of the Standing Ovation cast and filming a movie took a lot more work than he expected. "What surprised me was how many hours and days it took to shoot different scenes." What was his favorite scene? "Probably my favorite part was shooting at the rocks on the piano (for

the River Deep Ovations music video). The waves crash behind you..." In addition," at the studio I (fake) recorded them ( 5 ovations) when they were doing the video to show the judges for the competition." How'd he get into acting? In addition to his cameo on Sesame Street " I used to go to a performing arts camp for the summer. I performed a lot of places for that." Sounds cool, if he could sum up his experience shooting the movie in one word it would be "AWESOME!" Thank you Rocco for an inspiring interview. Never let an obstacle get in the way of your dreams! xoxo Ki

"Wow. REALLY inspiring. This interview will teach anybody that if they feel they are being stopped from doing something they love by an obstacle in life, to just keep on trucking and soon, things will turn out as hoped or even better! Anyway, this interview was REALLY interesting, and I think it can teach girls to look up and always be optimistic. Thank you for posting it! -Susan"
